## Where to find us?

Chikaina Piggeries is situated on 80ha prime land adjacent to the R56 en route to De Aar from the town of Phillipstown.

Our piggery has grown in leaps and bounds. We shelter over 25 Large White sows, good number of Duroc and Landrace boars and piglets to the highest animal welfare requirements.

## Our Differentiator

Chikaina Piggeries is destined to become one of the Northern Cape's prime pig breeding farms to have emerged from the town of Phillipstown. Our pig farming enterprise is propelling us to ultimately bring the bacon home in large chunks by being a future participant in the pork value-chain.

Chikaina Piggeries is home to brand new three pig houses. We breed; boar and sows, growers and finishers. We sell our piglets at 30-35kg as required by our discerning markets.

We committed to a future of establishing ourselves as stud-breeders and that of commercial pig farming as an injection from our current medium-size enterprise. This is in an effort to assure the markets of the best carcasses with high quality genetic material from our breeding farm.

## OUR PRODUCT

**We assure** - our pigs are bred under the highest standards. Hence we able to sustain our market share in dispatching to the most renowned of abattoirs and specialist meat suppliers. We rear pigs to ensure the consumer is provided with the best pork quality.

**We proud** - in supplying Bloemfontein based Veritas Livestock & Wholesale Meat and the Jacobsdal Abattoir. We are confident of the prospect of the overall growth of our enterprise and attaining more markets soonest. Thus, asserting our standing in the national markets as a striving piggery.

## Health and Safety

The Extension Support from the Department of Agriculture, Land Reform and Rural Development attests to our resolve in upholding food safety and adding quality pork into the food security equation of South Africa.

Our continuous training in production serves to enhance our quality control techniques. Veterinary support is on-call and inspections are carried out on a regular basis.
